

## Teaching the Roma in Borsod County, Hungary

### ***Full-time EFL teaching posts at a special secondary school in NE Hungary***

The Dr Ámbédkar Gimnázium is a special (needs?) secondary school supported by the Hungarian State, the Buddhist church and private funds. The school has over 400 young adult and adult students, most of whom come from extremely poor Roma communities. The four teaching centres of the Gimnázium operate in small villages near Miskolc, NE Hungary, providing primary and secondary education and vocational courses.

With the financial support of the Buddhist church, the Gimnázium is offering 4 full-time teaching positions for qualified EFL teachers. Potential candidates should be flexible, willing to take on a challenge, patient and friendly.
